

About The Jonathan Cancer Fund

Started in 1993, The JCF has helped several hundred families in 16 New York counties and Pennsylvania who have children diagnosed with cancer. These families either live locally in central New York or are being treated here.

The JCF offers financial assistance, money management services and a food card system for families in an inpatient setting. Financial assistance is a fixed amount per family to use in a manner that best meets the needs of that family. While inpatient, each family is given a food card to purchase food in the hospital cafeteria while their child is undergoing treatment. In addition, the JCF provides a \$450.00 gas card for families that need travel for treatment sessions. Phone cards are also provided by The JCF which allows family members to communicate with other family members without the worries of cost.

The money management program acts as a conduit for funds raised on a child's behalf. Money donated for a particular child is used at the discretion of each individual family to assist with loss of income, normal day to day expenses and expenses incurred by traveling for treatments. Donations are tax deductible and families do not have to report the donations as income. Over \$500,000 has been managed by The JCF for families who have taken part in this program. The JCF assumes all administrative costs while managing the family's money and no fees are charged for this service.

A Message from the Founder

Over the years so many people and businesses have made it possible for the JCF to help over 300 children and their families. To all of you, golfers, hole sponsors, donors of goods and services, please accept our most heartfelt thanks

Without each of you, our mission to help these kids and their families could not be accomplished.

We look forward to your continued support.

Pat MacCrea
